

1

Click the "Sites" button on the left menu bar. This will take you to a list of all of your sites.

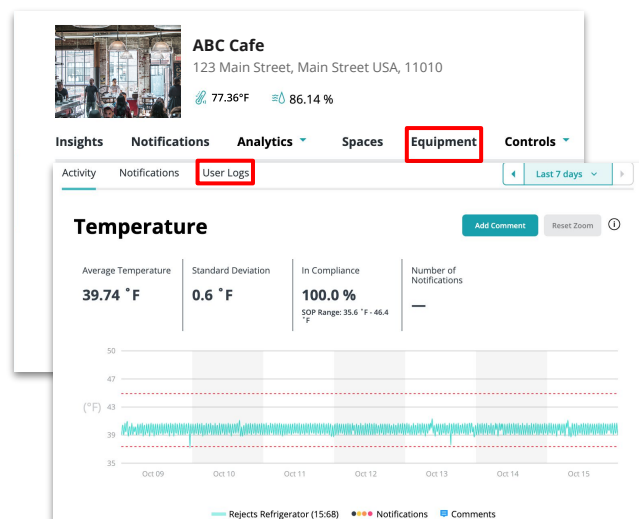

Select a site from the list.

2

Click the "Equipment" tab, then select an equipment.

Once an equipment has been selected, click on the "User Log" tab above the performance charts.

3

The "User Log" tab will show you a list of comments that have been made for the equipment.

You can filter and sort comments by Comment Type, Date and Value Type (Temp, Humidity, Door, or Energy).
